C.1.4. DESCRIPTION OF PARTNER NO. 1

Description of organisation, role in the project and general and specific social context as for example: being in a disadvantaged area, having participants with specific needs (e.g. participants at risk of social exclusion, migrants, refugees).

The Fitram is a federation, an INGO with participative status with the Council of Europe, which gathers associations from 10 different countries that practise and teach animal mediated assistance and therapy (AMAT). The Fitram is a member of the EASPD (European association of service providers for persons with disabilities), an institution gathering more than 800 associations.

The Fitram was set up to fend for the quality of AMAT practices and training. In the context of the project 'partenariats' – Leonardo Da Vinci, the Fitram has 8 partners, which are associations representing Austria, Belgium, Germany, Italy, the Netherlands, Poland, the Slovak Republic and Spain.

What: final objective: A European qualification framework of good practices and training in animal mediated assistance and therapy (AMAT).

Fitram is the coordinator of the project.

C.1.6. SILENT PARTNERS OF PARTNER NO. 1

Silent partners are organisations such as associations, local or regional authorities, companies etc which will be involved in the Partnership, but are not eligible for funding.

If silent partners are planned to be involved in the partnership, please give the details.

C.2.4. DESCRIPTION OF PARTNER NO. 2

Description of organisation, role in the project and general and specific social context as for example: being in a disadvantaged area, having participants with specific needs (e.g. participants at risk of social exclusion, migrants, refugees).

SHP offers to take a coordinative and active researching role in this project. We do accept participants with special needs.

F I T R A M

C.2.4. Description of Partner No 2

SHP-E(NL) Nederlandse Stichting helpen met paarden – Equithérapie -

A Dutch national foundation promoting science-based equithérapie (equine assisted therapy) and therapeutic riding, SHP-E(NL) is a non-profit organization with the following objectives:

- Make therapeutic riding (equine assisted therapy) better known in the Netherlands and Benelux
- Offer comprehensive training and advanced training for equitherapists SHP-E(NL)
- Assure the quality of equithérapie provided by equitherapists SHP-E(NL) trained at the Foundation
- Use public relations to inform about the characteristics of quality equithérapie and properly trained equitherapists to help clients choose the right therapist
- Raise funds to support socially and financially weak clients in need of equithérapie
- Conduct negotiations with insurance institutions, health insurance funds and government agencies regarding insurance cover of equithérapie provided by certified and registered equitherapists
- Participate in international cooperation projects for assuring and enhancing the quality of equithérapie training (the Foundation is an associate member of FATP, an initiative of German-speaking countries and the Netherlands aimed at promoting equine-assisted therapy)

The organisation has developed a training and organisation system for Equitherapists who may use the certified name and logo **Equithérapeute SHP-E(NL)** only if they conform to a system of training, supervision and quality standards and to the ethical code of SHP-E(NL). The therapeutic quality of the horse is described as a systematic and central factor (intermediate) within the therapeutic process

we apologize for not having fitted this text into the identical document of "helpen met paarden": there was, somewhere, a computer-problem!

We'll add this document to the paper-copy sent to the French Leonardo Agency

C.2.6. COORDINATION TAKE OVER OF PARTNER NO. 2

Does the institution volunteer to take over the coordination of the partnership in case the application of the nominated coordinator is rejected in the selection procedure? Replacement coordinators will, if needed, be taken in the order in which they appear in this form.

Yes

C.3.4. DESCRIPTION OF PARTNER NO. 3

Description of organisation, role in the project and general and specific social context as for example: being in a disadvantaged area, having participants with specific needs (e.g. participants at risk of social exclusion, migrants, refugees).

Lianes works with tramps through the mediation of their dogs and tries to restore a social contact: it appears as very efficient. The mediation of the dog is also very efficient in the contact with old people lost in their solitude. This method ought to be extended and approved politically.

C.3.7. SILENT PARTNERS OF PARTNER NO. 3

Silent partners are organisations such as associations, local or regional authorities, companies etc which will be involved in the Partnership, but are not eligible for funding.

If silent partners are planned to be involved in the partnership, please give the details.

C.5.4. DESCRIPTION OF PARTNER NO. 5

Description of organisation, role in the project and general and specific social context as for example: being in a disadvantaged area, having participants with specific needs (e.g. participants at risk of social exclusion, migrants, refugees).

STRAPATE RANCZO is an animotherapeutic centre in central Poland. Main goal: to help people with mental problems (for poor people and in hard social conditions), studying of working of pet assisted therapy with educating and training in therapeutic riding work for specialists. We concentrate on research and educational work in AAT with the goal to achieve the acceptance of therapeutic riding as effective therapeutic method of big preventive value. Our organization provides special workshops and self-experience trainings for specialists in the field of therapeutic riding. We provide studying and comparing of diagnostic, methodical, didactic process by self-experience trainings for specialists in therapeutic riding. Ad inde we practice cooperating with parents, schools, mental centres, also diagnostic work, therapeutic work – therapeutic riding, dog assisted therapy, studying of effects by this kind of therapy methods. The outcomes of this are published in scientific magazines. The outcomes of our work are not only therapy effects for clients but also the multiple verification of this kind of therapy methods, of specialist's education and trainings in therapeutic riding, work and presentation and propagation of our experiences at European and world rank. We practice teaching, dealing with children with behaviour and learning difficulties and disabled children and their integration, counselling for children, parents, teachers with problems, dealing with bullying and prevention, using of drug and criminality prevention, cooperation with social workers. Fancy of therapist's education and training's skills of therapeutic riding in Europe, developing of specifically diagnostic methods for effective at trainings for specialists, developing and confirming of self experience's training model - programs with well-defined level of quality and competencies for aa therapists (this means in particular complex diagnostic, didactic and methodical model for aat's supervisors, teachers in EU countries). We want to develop an education model responding to the needs of the clients and organizations. This way we can help improve good practices in the EU. This is where the influence on right political decisions in EU countries through adequate supporting of therapeutic riding is important. With the help of our research, we want to define well animals' adaption to this kind of work and also to define the practice according to the animals' well-being.

C.6.4. DESCRIPTION OF PARTNER NO. 6

Description of organisation, role in the project and general and specific social context as for example: being in a disadvantaged area, having participants with specific needs (e.g. participants at risk of social exclusion, migrants, refugees).

SHA is a professional organization in the Slovak republic, it covers professionals working in this field as hippotherapists (physiotherapists, psychiatrists, psycho-therapists, psychologists, remedial - special - social educators) SHA is also a schooling and training centre. It offers professional education for new hippotherapists (in cooperation with the Slovak Health University in Bratislava). It organizes Slovak Hippotherapeutic Conferences every second year (not only with Slovak speakers, but also with speakers from middle and eastern Europe). Our role in the project: SHA is organizing educational courses and trainings in AMAT for therapists. We publish our research studies in journals and present our experience in the public media. We create new professional didactic material for clients (actually it is a workbook for pre-school children with a disability). With our experience, we can help to compare different systems of education in therapeutic riding across the EU, to develop specific diagnostic methods for effective trainings in AMAT for specialists. We have started with educational and training changes in therapeutic riding education system in our country. Currently our ambition is to make educational and training courses for future therapists more effective. We can more specifically provide Polish proofing and developing diagnostic methods as well as trainings methods. The other specific issue is the function and training of the horse for therapeutic riding. We are studying this topic and we would like to continue this research within the frame of the EU project. Information is often very isolated and available only with difficulty. We therefore feel the need for more networking.

C.6.7. SILENT PARTNERS OF PARTNER NO. 6

Silent partners are organisations such as associations, local or regional authorities, companies etc which will be involved in the Partnership, but are not eligible for funding.

If silent partners are planned to be involved in the partnership, please give the details.

C.7.4. DESCRIPTION OF PARTNER NO. 7

Description of organisation, role in the project and general and specific social context as for example: being in a disadvantaged area, having participants with specific needs (e.g. participants at risk of social exclusion, migrants, refugees).

The members of handhippo are medical and social professional, specialized in hippotherapy. The association wishes to enhance the quality of the practices and promote information about them among the public. Handhippo wants to participate in this project by gathering the information about AMAT in our own country and bringing them back to European seminars. We shall help with the analysis and synthesis of the vast scope of information so as to elaborate a European basis of the qualities necessary for good practices and an adequate teaching in the different partner countries.
